Pollard's industry leading 25 year warranty

Our commitment to foster and build relationships with our customers extends to our warranty, considered among the best in the business. We offer a solid manufacturer's warranty on parts, a non-prorated warranty on insul units and a non-prorated warranty on all vinyl components. By concentrating on being the best - rather than the biggest - Pollard Windows has earned a reputation for superior quality and durability. Of all our accomplishments, our greatest satisfaction is the loyalty shown to us by many long standing customers. For more information on our warranties please log on to www.pollardwindows.com or contact your Pollard dealer.

LIBERTY
COLLECTION

VINYL CLAD WOOD WINDOWS
AND DOORS

Over 60 years of family tradition and commitment

POLLARD WINDOWS INC.

Pollard Windows is a third generation family business, established in 1948. The Pollard formula for success has been hard work, reinvesting in new technology, and a consistent desire to give our customers more for their money. Today our plant has grown to 300,000 sq.ft. and we are recognized as a leader in window and door manufacturing technology. Beyond our equipment, is the strong sense of family that is ever present at Pollard Windows. It is that family tradition and a lasting commitment to exceptional value that has been the blueprint of our continued success.

Why the Liberty Collection is right for you

Having originated as wood window manufacturers, Pollard knows the insulation value of wood. We also know that our busy lives today mean less time for maintaining our homes. That is why we developed the Liberty Collection. The Liberty Collection combines the maintenance-free benefits of a durable vinyl clad exterior with the warmth and beauty of a natural wood interior. At Pollard "We're About Family" so we know that if our products are as maintenance-free as possible you will have more quality time to spend with your family. Beyond that, you'll have peace of mind knowing that our windows and doors will stand the test of time.

Provincial Style

Prairie Style

Muskoka Style

Choose 3/2" Heritage Exterior Casing or 1" Brickmold to enhance the curb appeal of your home.

Accent your windows with our matching interior trim.

Hardware is color coordinated to suit your interior finish. Multipoint hardware is standard on casements.

Add further character with removable wood grills, divided lite bars or internal aluminum grills.

- 1) 5/8" internal
- 2) 3/4" removable wood
- 3) 1-1/8" removable wood
- 4) 3/4" exterior simulated divided lite
- 5) 1-1/8" exterior simulated divided lite

Liberty Windows offer homeowners great versatility with a wide range of options for exterior colors, interior finishes and grill designs. You'll improve the curb appeal of your home with this array of choices.

Our Silversand color has such a warm neutral tone that it complements virtually any shade of brick or siding. With four interior finishes to choose from, your new Liberty windows will blend beautifully with any interior decor. Our natural oak interior is the perfect choice to finish off that oak den with the richness it deserves. Our maple interior coordinates well with maple cabinets and floors. The choices continue with our standard grill designs available in your choice of four attractive styles - Colonial, Provincial, Prairie and Muskoka or custom configurations. Each adds its own distinct character to your Liberty window.

For freedom of choice in architectural detailing and interior design flexibility, turn to the beauty of the Liberty Collection by Pollard Windows.

Choices that build character

The most versatile of all operating windows

TUDOR CASEMENT WINDOWS

Tudor Casement Windows are extremely popular because of their versatility. Their long, slim styling makes them ideal when used individually in areas where wall space is limited. Designed with multipoint hardware, strong locks and a double full perimeter seal, you can rest assured our Tudor casements are secure and energy efficient. They can be opened a full 90 degrees to provide plenty of ventilation and easy cleaning. They work well in combination with fixed lite windows to make up bay, bow and picture windows. Our popular Tudor casement windows complement virtually any architectural style.

Compliment the style of your home

A traditional look with superior performance

TWINTILT DOUBLE HUNG WINDOWS

Liberty E Series Twintilt double hung windows work beautifully on Colonial or Georgian style homes. This redesigned Twintilt is the first installment in the E Series - the next generation of Liberty. Its advanced design includes a split-finish jambliner to complement both exterior and interior finish. A triple-seal pile weatherstrip provides an ultra-smooth gliding operation. Upgraded color-matched metal tilt latches allow you to tilt both sashes in, making cleaning a snap. Create a bold Colonial look by adding our maintenance-free 3 1/2" Heritage Exterior Casing. Our Liberty E Series Twintilt has the beauty and character of traditional double hung windows with the advanced technology and energy efficiency of today.

Retain the design elements of your home

STORMDEFENDER
Storm Defender option is available for areas where severe weather is a problem.

CARIBBEAN AWNING WINDOWS

For a room with limited wall space and a need for good ventilation and natural light, the answer lies in Caribbean awning windows. They offer all the advantages of casement windows plus one extra feature - they are hinged from the top and can be left open slightly during a rainfall with little risk of any rain getting inside. They are an effective solution for tight areas such as bathrooms or basements. Due to their unique modular design, our Caribbean awning windows can be combined with matching fixed lites to enhance the contemporary look of your home.

A practical solution for good ventilation

Clean simple lines and maximum glass area

FIXED LITE WINDOWS

With central air conditioning in more homes than ever, Fixed Lite Windows have gained in popularity. They are highly regarded for the added comfort and security they provide. Their clean, simple lines act as a picture frame to the world outside and their maximum glass area allows for large amounts of natural light to come through and brighten any room. Our Liberty fixed lite windows are engineered with a sash to match the sitelines of our operating windows. This design detail enhances the curb appeal of your home. When combined with operating windows, these fixed lites can be used to create visually spectacular feature windows in your home.

Your picture frame to the world outside

DECORATIVE WINDOWS

Looking for something new and different to bring interest and character to your home? Try a Decorative window in one of many interesting and unusual styles. From octagons and trapezoids to half rounds and extended segmentals, there is a decorative window to suit everyone's design dream. For a truly unique look they can be used in combination with both doors and other windows. The right decorative window can distinguish your home from the rest. Our custom window department works closely with our customers to provide a creative solution to their decorative window needs. You'll be amazed at how these custom shaped windows can transform the look of your home. They also offer you many exciting interior decorating opportunities.

Exciting design opportunities

FRENCHCLAD DOORS, ENTRANCE SYSTEMS & VISTADOR PATIO DOORS

Liberty FrenchClad Doors combine a tough, durable, maintenance-free PVC exterior with a beautiful, rich natural wood interior. A large area of insulated glass creates a very spacious view. The result is a very appealing entrance that provides maximum light without sacrificing energy efficiency or security. They are ideal for decks, patios or porches.

Polardor Insulated Entrance Systems offer the durability of an insulated steel or fiberglass door and the flexibility of a wide selection of lite designs. Choose from our standard, decorative or premium door lite designs.

Terrace Doors are another great choice for patios, walk-outs or porches. These popular style doors feature the strength of an insulated steel door with an expansive area of glass that create a beautiful view to your outdoors. Terrace doors come complete with a sliding screen door.

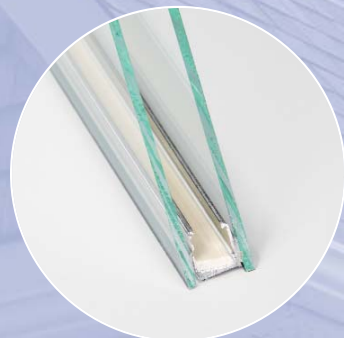

Liberty E-Series Vistador is ideal for kitchens, walkouts, decks, patios or porches. It combines the beauty of a wood interior with an easy care vinyl exterior and a large area of insulated glass for a panoramic view. Vistador doors are available in a two or four lite configuration and come complete with a sliding screen door to allow fresh air in.

We're open to your ideas

THE HEART OF A LIBERTY WINDOW

Lead-free vinyl cladding is available in four versatile colors, is weather-resistant and will not flake, peel, rust or corrode.

Powerpane Plus glazing with warm edge steel spacer bar technology means greater comfort and reduced condensation.

Three beautiful wood interiors match any decor. They're warm to the touch and rich in appearance. Paint grade pine is also available.

Our Healthy Planet Focus

Pollard Windows is dedicated to manufacturing windows and doors that are energy efficient and durable for generations to come. We're committed to environmentally conscious choices through responsible engineering and design with the efficient use of materials. Our continuous product improvements consider ways to recycle, reuse and reduce. Pollard's commitment to a greener future is shown by our participation with the ENERGY STAR® program and our membership in both the Canada and U.S. Green Building Councils. Furthermore, our windows are featured in some award winning Platinum Certified LEED® Homes (Leadership in Energy and Environmental Design).

At Pollard Windows "We're About Family". That's why we strive to protect the environment for future generations. We've partnered with ENERGY STAR® and are making a positive contribution to help preserve the environment. By choosing products that have earned the ENERGY STAR you are helping to make a difference too.

Recognized internationally, the ENERGY STAR symbol distinguishes products which have been tested, proven and certified to help save energy, money and the environment.

Some features that have helped our windows to earn the ENERGY STAR include:

Extruded Vinyl Cladding

Only lead free virgin vinyl is used in our Liberty cladding. All vinyl extrusions are a minimum .060 thick which is six times thicker than typical aluminum cladding. Vinyl offers excellent durability and can be easily recycled. Vinyl also has a prolonged lifecycle and is virtually maintenance-free meaning less windows will end up in the landfill.

Powerpane Plus Low E Argon Glazing

The Liberty Collection features high performance glazing which consists of an advanced Low Emmissivity coating, an airspace filled with argon gas and a warm edge steel spacer bar around the perimeter. This combination of materials reduces heat loss through the glass and minimizes condensation and filters out harmful U.V. rays. Powerpane Plus glazing will reduce the amount of energy required to heat and cool the home, decreasing the amount of greenhouse gases released into the environment.

Design that performs

Wood samples in this brochure have been finished for display purposes. Pollard Windows Inc. conducts a continuing product development program and reserves the right to make product improvements without notice. The Liberty Collection is manufactured exclusively by Pollard Windows and protected by the following North American patents: 372,540; 78,025; 78,596; 78,166; 374,489.
